

SINDHUJA V

SENIOR QUALITY ANALYST

PROFILE

Senior Quality professional with in-depth expertise in quality analysis, known for driving impactful improvements. Proven ability to implement effective quality control processes and enhance operational efficiency. Proven ability to collaborate effectively within teams and adapt to changing requirements. Skilled in identifying and resolving issues, ensuring compliance, and driving continuous improvement initiatives.

WORK EXPERIENCE

Zaggle Prepaid ocean

2022 - PRESENT

Senior Quality Analyst

- Led a QA team by assigning tasks, tracking progress, and ensuring the on-time delivery of high-quality releases in **Agile/Scrum** environments.
- Implemented effective QA strategies and processes including **regression cycles, smoke testing, and API validation** to improve test efficiency and defect detection.
- Collaborated with **Business Analysts, Developers, and Product Owners** to clarify requirements, understand business logic, and ensure complete test coverage.
- Reviewed team members' test cases and defect reports to ensure consistency, accuracy, and alignment with the defined **quality standards**.
- Executed comprehensive **manual** and **API test cases** using tools like Postman for **RESTful** services (GET, POST, PUT, DELETE) across web and mobile platforms.

Locobuzz Solutions

2021-2022

Test Engineer

- Mentored** junior QA team members by sharing domain knowledge, reviewing their work, and guiding them on best practices for effective testing and defect reporting.
- Improved test coverage and reduced **post-release defects** by identifying testing gaps and implementing better risk-based testing approaches.
- Delivered **product demonstrations** to clients and internal stakeholders to showcase sprint deliverables, ensuring alignment with user expectations.
- Validated system functionalities through structured testing (smoke, sanity, functional, and regression) and provided **sign-off for sprint releases**.
- Analyzed the impact of change requests on existing functionality to plan targeted regression testing and mitigate potential risks.

Genpact

2018-2021

Test Engineer

- Prepared and executed **manual test cases** for web and mobile apps
- Logged and tracked defects using **Jira** with detailed **repro steps**
- Participated in the **daily scrum meetings** and giving status updates
- Collaborating with developers about **bug status** and **fixes**
- Re-testing and regression testing doing on fixes and releases
- Gained hands-on experience in **UI, functional, and regression testing**
- Adhering to the Agile/Scrum process
